

Product fiche pursuant to Delegated Regulation (EU) no. 392/2012

| | |
|--|----------------------|
| Brand | HOOVER |
| Product description | DNH D813A2-80 |
| Cotton capacity (kg) | 8 |
| Type of dryer | HEAT PUMP |
| Energy efficiency class | A++ |
| Annual Energy Consumption (kWh) (1) | 236,0 |
| Automatic dryer | 1 |
| Energy Cons. kW/h cycle full load (2) | 1,95 |
| Energy Cons. kW/h cycle half load (2) | 1,08 |
| Power consumption off mode (W) | 0,20 |
| Power consumption stand by (W) | 0,75 |
| Weighted programme time | 172 |
| Nomative drying time (min) full load | 225 |
| Nomative drying time (min) half load | 133 |
| Condensation efficiency class (from G as min to A as max) | B |
| Weighted condensation efficiency % | 84 |
| Average condensation efficiency % full load | 84 |
| Average condensation efficiency % partial load | 84 |
| Noise level (dB(A) re 1 pW) | 67 |
| Built in / free standing model | FREE-STANDING |

Product fiche pursuant to Delegated Regulation (EU) no. 392/2012

1) based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used

2) The 'standard cotton programme' used at full and partial load is the standard drying programme to which the information in the label and the fiche relates. This programme is suitable for drying normal wet cotton laundry and it is the most efficient programme in terms of energy consumption for cotton.
